Tarunika Ganesan

Computer Science Student | Full Stack Developer | AI Enthusiast

+91 9345759316 | tarunikaganesan2006@gmail.com | Chennai, India

LinkedIn | GitHub | LeetCode

Career Objective

Aspiring Software Engineer with a strong foundation in **Data Structures, Algorithms, and Object-Oriented Design**, driven to solve complex problems and build **scalable, high-performance software**. Experienced in developing **Full-stack applications** and **AI-powered solutions** using Java, Python, React, and cloud technologies, with a passion for transforming ideas into impactful products.

Education

Sri Krishna College of Engineering and Technology — Coimbatore, India
M. Tech Computer Science and Engineering (4th Year) , CGPA : 8.89 — *2023 – 2028*

CSI Jessie Moses Matriculation and Higher Secondary School — Chennai, India
Higher Secondary Education , Percentage : 94.6 — *2008 - 2023*

Technical Skills

Programming Languages	Java, C, C++, Python, SQL, PL/SQL, JavaScript
Frontend & UI/UX	HTML5, CSS3, Tailwind CSS, React.js, Figma
Backend Development	Java (Spring Boot), FastAPI, Node.js, REST APIs, JWT
Machine Learning	Scikit-learn, Pandas, NumPy, Model Evaluation
Data & Analytics	MySQL, Oracle APEX, Power BI, Excel, MongoDB,
Cloud Platforms	GCP, MS Azure, AWS
Tools & Platforms	Git, GitHub, Linux, Postman, VS Code, Google Colab, Jupyter Notebooks, Vercel
Core Concepts	DSA, OOP, DBMS, OS, Computer Networks

Experience

Python Developer Intern — May 2025 – June 2025
Boston Technologies — *Chennai, India*

- Developed and optimized scalable Python-based modules and backend logic, improving task efficiency by 30.
- Monitored and validated data pipelines through data completeness checks, row-count verification, and troubleshooting to ensure reliable processing.
- Strengthened analytical thinking and problem-solving through data validation and troubleshooting.

Software Engineering Intern — May 2026 – June 2026
Bics Global — *Chennai, India*

- Developed **Nexora**, an AI-powered intelligence platform using Java, Spring Boot, React, REST APIs, and MySQL to deliver intelligent business solutions.
- Engineered secure backend services, integrated AI-driven features, and optimized application performance to support scalable business solutions.
- Enhanced teamwork and technical collaboration while developing AI-powered software solutions.

Java Full Stack - Virtual Intern — June 2026 – August 2026
Infosys Springboard — *Virtual*

- Developing an **Enterprise Procurement System** using Java, Spring Boot, React.js, and MySQL to streamline procurement workflows and supplier approvals.
- Implemented backend business logic, database operations, and responsive UI components while applying OOP principles, debugging, testing, and Git-based collaboration.
- Improved team coordination and Agile collaboration through collaborative project development.

Projects

WeltNexus | *React, CesiumJS, Three.js, Node.js, Express, MongoDB, Python, FastAPI, GIS* Live Demo

- Developed a **3D cadastral GIS platform** for Chennai, mapping 2D ULPIN land records to a hierarchical 3D property model spanning parcels, buildings, floors, units, and volumes.
- Built AI-powered geospatial services using FastAPI for building extraction from imagery and floor-plan segmentation into rooms and individual units.

Enterprise Procurement System | *Java, Spring Boot, React, MySQL, Spring Security* Live Demo

- Built an end-to-end **procurement platform** managing purchase requisitions, multi-level approvals, and purchase orders through a structured workflow.
- Implemented Spring Boot REST APIs, role-based authorization to enforce secure, traceable procure operations.

Investment Management System | *Oracle APEX, PL/SQL, SQL* Live Demo

- Developed a **Mutual Fund Management** application featuring investor records, scheme management, transaction tracking, and NAV monitoring.
- Designed database-driven dashboards and reporting workflows to centralize investment data.

E-Wallet Management System | *Java, Spring Boot, React, MySQL, REST APIs* Github

- Developed a **Digital wallet** supporting user authentication, balance management, and transaction processing through a full-stack interface.
- Connected RESTful services with MySQL to enable structured data handling and reliable transaction processing.

AI-Based Fish Aggregation & Weather Prediction | *Python, Machine Learning, APIs* Github

- Developed an **AI-driven solution** to identify potential fishing zones by combining marine conditions with weather data.
- Integrated real-time data APIs and predictive analytics to generate insights for informed fishing-location decisions.

Achievements & Certifications

- Showcased a project WeltNexus at **CII Edu-Tech Expo 2026**, receiving industry experts feedback.
- Ranked in the **Top 50** of the **Amazon ML Challenge 2025**.
- Solved **450+ DSA problems** on LeetCode.
- Completed **DSA, DBMS, Advanced Java, and Web Technologies** courses through Infosys Springboard.
- Achieved a score of **90%** in **Linux Training** by IIT Bombay.
- Attended an **IIT Madras workshop** on Data Science and Machine Learning.
- Earned an **NPTEL Elite certification** in Stress Management and certification in Environmental Science.
- Participated in **Entrophy (VIT Chennai)**, **K! HACKS 2.0 (Anna University)**, and **SHAASTRA (IIT Madras)** hackathons.

Awards

- 3rd Place — CODE WARS Coding Contest, PSG Institute of Technology
- 2nd Place — Build-a-Thon (UI/UX Website), Sri Krishna College of Engineering and Technology
- Class Topper Rank II — M.Tech CSE, Sri Krishna College of Engineering and Technology
- 1st Rank in Mathematics (Class 12) — CSI Jessie Moses Mat & Hr Sec School
- NPTEL Elite Certification — Stress Management

Extracurricular Activities

- Classical Dancer (Bharatanatyam) — Completed Arangetram; performed at temple events; secured 2nd place at YMCA Inter-School Cultural Fest
- Sketching & Digital Art — Secured 1st place in Sketching and Poster Making at college level

Languages

- English
- Tamil
